

PROJECT / ART - Cooperation with AR Telecom in Propagation and Radio Communications

ART

Main Objective:

Validation of planning tools (propagation modeling).
Interference, attenuation and fading margins evaluation for system design.
Analysis of network architectures and access platforms for system implementation.

Reference: S077, Funding: AR Telecom, Start Date: 01-03-2007

Team: [António José Castelo Branco Rodrigues](#), [Carlos Alberto Ferreira Fernandes](#), [Carlos Eduardo do Rego da Costa Salema](#), [Sérgio Manuel Maciel de Faria](#), João Eira, Filipe dos Santos Perdigoto

Groups: [Radio Systems – Lx](#), [Antennas and Propagation – Lx](#), [Multimedia Signal Processing – Co](#)

Local Coordinator: [António José Castelo Branco Rodrigues](#)
